 - Ex:
 - :height: 500

PermutationTool

Command

- .. permutationtool:: <identifier>

Options

- :element1:
 - The first element you want to add to the pattern
 - Ex:
 - :element1: a
- :num1:
 - The number of times you want element1 to appear in the pattern
 - Ex:
 - :num1: 2
- :element2:
 - The second element you want to add to the pattern
- :num2:
 - The number of times you want element2 to appear in the pattern
- :element3:
 - The third element you want to add to the pattern
- :num3:
 - The number of times you want element3 to appear in the pattern
- :element4:

- The fourth element you want to add to the pattern
- :num4:
 - The number of times you want element4 to appear in the pattern
- :element5:
 - The fifth element you want to add to the pattern
- :num5:
 - The number of times you want element5 to appear in the pattern

ProgrammedCountingTool

Command

- .. programmedcountingtool:: <identifier>

Options

- :example:
 - The example code snippet you want to populate the tool with
 - Ex:
 - :example: 3
